XGIMI

Reimagines Home Entertainment

XGIMI's story began in 2013, and since then, we have redefined the way over 6 million households experience cinema-quality viewing globally, by offering cutting-edge technology, sleek designs, and super simple setups.

Collaborating with reputable partners such as Texas Instruments, Google, Harman Kardon, and Dolby, XGIMI has developed over 50 incredible all-in-one home and portable projectors. This feat is a testament to our unwavering commitment to user-centric innovation.

As we continue our journey, we remain anchored to this principle: to solve, to innovate, and to make cinematic magic accessible and hassle-free for all.

By June 2024, XGIMI's reach has expanded to over 5000 retail outlets worldwide, with a milestone of exceeding 6 million shipments globally.

4K Laser TV

AURA 2

Smart Art 4K Laser TV

Product Specs

Dual Light 2.0 Technology

Dual Light 2.0 technology is the latest achievement of XGIMI in applying a "Wide Spectrum + Narrow Spectrum" hybrid light source technology. By combining both light sources, this technology managed to create a continuous natural spectrum, unleashing the full potential of both sources for exceptional picture quality in brightness, contrast ratio, color gamut and color accuracy along with more eye-friendly and comfortable viewing.

IMAX Enhanced* & Dolby Vision Certificated

Enjoy the original IMAX Cinema entertainment experience providing by IMAX Enhanced*; Enjoy the complete Dolby Cinema entertainment experience providing by Dolby Vision & Dolby Atmos.

*The feature will be upgraded through OTA within the 4th quarter of 2024.

2300 ISO Lumens

Using Dual Light 2.0, AURA 2 separates primary colors and can express the ultimate 2300 ISO Lumens brightness; Compared to conventional projectors (DLP, Laser, and Dual Laser) that use color-wheel and reflect colors from one color light, XGIMI Dual Light 2.0 Tech has better brightness and no color loss.

0.177:1 Ultra Short Throw Ratio

Using XGIMI's advanced UST display technology, the AURA 2 projects a significantly larger image within the same distance from the projector to the wall. Simply place the AURA 2 near the wall; no complicated installation is needed to create an impressive home cinema screen of up to 150 inches.

Tailored ISA 5.0 for UST

Making smarter and more user-friendly projectors has always been XGIMI's vision. With the brand new ISA 5.0 Tech for UST, XGIMI elevates the adaptability, environment awareness and calibration accuracy to new heights while ensuring top-notch image quality.

Remark:
1. The brightness data is from the XGIMI Laboratory. Actual product brightness may differ based on the specific test software version, testing environment, and product version.
2.All parameters listed on this page are measured in a controlled test environment before the product is mass-produced. The results may vary based on individual user experiences, including different environments, usage conditions, and firmware versions.

HORIZON S Max

Max Performance, Max Entertainment

Dual Light 2.0 Technology

Dual Light 2.0 technology is XGIMI's latest achievement in applying a "Wide Spectrum + Narrow Spectrum" hybrid light source technology. By combining both light sources, this technology creates a continuous natural spectrum, unleashing the full potential of both sources for exceptional picture quality in brightness, contrast ratio, color gamut, and color accuracy.

IMAX Enhanced & Dolby Vision Certified

With IMAX Enhanced, users can enjoy a true IMAX theater experience with a stunning big screen. Dolby Vision provides incredibly vivid effects, making your viewing experience even more immersive.

3100 ISO Lumens

Outstanding high brightness performance, unaffected by ambient light, lets you enjoy 4K cinema anytime. Immerse yourself in a vivid world of light and shadow.

Built-in Flexible Stand

Easily control the gimbal with one hand, ensuring optimal viewing angles from any position. The projector supports adjustments of 360° horizontally and 135° vertically, so you can project onto walls, ceilings, and other surfaces for a customized large-screen experience.

ISA 5.0

Making smarter and more user-friendly projectors has always been XGIMI's vision. With the brand new ISA 5.0 tech, XGIMI elevates adaptability, environment awareness, and calibration accuracy to new heights while ensuring top-notch image quality.

Remark:
1. The brightness data is from the XGIMI Laboratory. Actual product brightness may differ based on the specific test software version, testing environment, and product version.
2.All parameters listed on this page are measured in a controlled test environment before the product is mass-produced. The results may vary based on individual user experiences, including different environments, usage conditions, and firmware versions.

HORIZON Ultra

World's First 4K Long-Throw Home Projector with Dolby Vision

4K Ultra-high Definition Resolution

HORIZON Ultra delivers 4K image quality available in a project its size. Enjoy staggeringly crisp images and vivid, lifelike colors for your movies and TV shows, all on an enormous 200" screen.

Laser LED Hybrid Light

XGIMI's Dual Light technology achieves ultra-high brightness, ultra-wide color gamut and ultra-high color accuracy for jaw-dropping and lifelike visuals.

Intelligent Screen Adaptation 3.0

Equipped with optical zoom, dynamic iris, dynamic color adjustment module and wall color adaption, HORIZON Ultra features XGIMI's best home environment adaption technology to date. Enjoy a projector that fits your home decor seamlessly.

Professional Gaming Projector

With outstanding 18ms latency and a blazing-fast 60Hz refresh rate, equipped with high-powered Harman Kardon audio, every frame is rendered with precision and clarity, allowing for complete immersion in any gaming world.

Non-Stop Entertainment

HORIZON Ultra boasts the latest Android TV 11.0 interface, opening up a world of entertainment for everything you love to watch, listen to, or play.

Cinematic Brilliance On-the-Go

Product Specs

Display	Product Classification	Portable Projector	Standard Resolution	1920 × 1080 pixels
	Display Technique	DLP	Lamp Life	25000 Hours
	Display Chip	0.23" DMD	Lens	High Light Transmission Coated Lens
	Supported Formats	HDR10	3D	3D (Top and Bottom (Including Frame Packing) & Side by Side)
	Brightness	400 ISO lumens		

Setup	Throw Ratio	1.2:1	Intelligent Screen Alignment	Yes
	Uninterrupted Auto Focus	Yes	Intelligent Obstacle Avoidance	Yes
	Uninterrupted Auto	Yes	Projection Method	Front, Rear, Front Ceiling, Rear Ceiling
	Keystone Correction	Yes	Image Size	40" - 200" 1

System	RAM	2GB	System	Android TV™ 11.0
	Storage	16GB	Mirroring Display	Chromecast built-in/Airscreen
	Fast Boot	Yes		

Audio	Speaker	2 × 8W	Dolby Digital (DD)	Yes
	Dolby Audio	Yes	Dolby Digital Plus (DD+)	Yes

Connectivity	Input Ports	USB type-C × 1 (PD Protocol	Output Ports	AUX × 1
		Power Charge Supported)		Wifi 5 Dual-band 2.4/5GHz, 802.11a/b/g/n/ac
		USB type-A × 1		Bluetooth 5.0
		HDMI × 1		

Electrical	Noise	< 30dB	Power	AC100-240V, 50/60Hz
	Power Dissipation	65W		

Measurements	Product Size (H × W × D)	161 × 119 × 108mm (6.33 × 4.68 × 4.25Inch)	Product Weight	1.1kg (2.42lb)

What's in the Box	Power Plug	×1	Warranty Card	×1
	Manual	×1	Bluetooth Remote Control	Bluetooth Remote Control × 1, AAA Batteries × 2

Remarkable 400 ISO Lumens

MoGo 2 Pro delivers 400 ISO lumens. At the same time, it introduces the D65 color temperature standard adopted by Hollywood which is rare for most projectors in its class, providing you with a breathtaking view anytime, anywhere. ²

Professional Built-In Sound

MoGo 2 Pro has two built-in 8W speaker units, is equipped with Dolby Audio, Dolby Digital, Dolby Digital Plus sound effects, and features Bluetooth speaker modes, functioning remarkably as a projector and high-quality speaker.

Intelligent Screen Adaption (ISA) 2.0 Technology

Thanks to our upgraded ISA 2.0 technology, the easy-to-use MoGo 2 Pro brings faster, more accurate, uninterrupted automatic picture correction, and real-time intelligent eye protection.

Portable & Lightweight

MoGo 2 Pro's compact build can easily be held in one hand. Moreover, its USB-C interface and excellent compatibility fulfills different usage needs, like in the bedroom, kitchen, backyard, or even when camping.

Non-Stop Entertainment

MoGo 2 Pro features the latest Android TV™ 11.0 interface, opening up a world of entertainment for any and everything you love to watch, listen to, or play. ³

Elfin Flip

Filp Your Vision

Product Specs

400 ISO Lumens

The brightest of its kind under a stricter and more professional standard. Say goodbye to projectors with low brightness.

DLP Display Technology

In the same price range, DLP projections offer richer colors, more uniform brightness, and higher clarity when projecting from the side. Using DLP technology, Elfin Flip provides cinematic image quality in a thin, lightweight design.

150° Adjustable Built-in Stand

Watch anywhere at any angle with incredible ease and effortlessly adjust the angle for the perfect viewing experience.

2 × 3W Built-in Speakers

Two 3W built-in speakers provide cinematic surround sound and instantly enhance your favorite YouTube videos or music, via Bluetooth, with the high-quality sound they deserve.

Intelligent Screen Adaption

With our Intelligent Screen Adaption (ISA) technology (Auto Keystone Correction, Auto Focus, Intelligent Obstacle Avoidance, Intelligent Screen Alignment) , you'll spend more time enjoying Elfin Flip, not adjusting its picture.

Remark:

1. The brightness data is from the XGIMI Laboratory. Actual product brightness may differ based on the specific test software version, testing environment, and product version.

2.All parameters listed on this page are measured in a controlled test environment before the product is mass-produced. The results may vary based on individual user experiences, including different environments, usage conditions, and firmware versions.

Notes

- 1

40" - 200" is the theoretical projection size range for HORIZON Series, Halo Series, MoGo Series and Elfin; 80" - 150" is the theoretical projection size range for AURA; however, for the best viewing experience, we recommend the following screen sizes:

HORIZON Series: 60" - 150"
Halo Series, MoGo Series, Elfin: 60" - 120"
AURA: 80" - 120"

Exceeding this range may affect the quality of your projected content. The display quality may vary based on product usage habits and environmental conditions.
- 2

Brightness (light output) will vary depending on usage conditions. White light output measured in accordance with ISO 21118. The nominal value represents the average value of mass production and is tested under ideal laboratory conditions in the performance mode/high power mode.
- 3

Android TV is a trademark of Google LLC.
- 4

To ensure calibration is accurately performed, it is recommended that the side throw angle does not exceed 40° (degrees). The display quality may vary based on product usage habits and environmental conditions.
- 5

The battery life varies according to the viewing mode, application usage, and environment.
- *

Actual product features and specifications (including appearance, color, and size) and actual display aspects (including backgrounds, interface, and icons) may vary by country. Please consult the point of sale for further information.
- *

All performance data in the preceding pages are theoretical values obtained by XGIMI internal laboratories through tests conducted under particular conditions. Refer to the aforementioned product details for more information on the specific testing conditions. Actual performance may vary based on individual product configuration, software versions, application conditions, and environmental factors. All data is subject to actual usage.
- *

XGIMI makes every effort at the time of publication to ensure the accuracy of product information it provides. Due to subsequent changes involving product batches, production, and supply factors, it may be necessary for XGIMI to make changes and adjustments to text and images so that they match the performance, specifications, indexes, and components of the actual product. Product information is subject to such changes and adjustments without notice.
- *

Operating temperature: 0°C to 40°C.
- *

All parameters listed on this page are measured in an XGIMI internal test environment for mass production. User experiences may vary indifferent settings, usage conditions, software versions, etc. Please check the official XGIMI website for detailed test standards and data.
- *

The product will be attached with a printed manual. However, the electronic manual will be updated on the XGIMI website. If there is any discrepancy or conflict between the printed and the electronic manual, please refer to the latest electronic manual on the official website.
- *

When the XGIMI MoGo 3 Pro or MoGo 2 Pro is connected to the power bank, it will enter Eco Mode, and the brightness and sound effects will be affected to a certain extent.
