

Dual Hose Box

Drill here

(distance to bottom holes: 29 cm)

Drill here

Easily install your hose box on the wall:

1.

Take the mounting plate and drill the holes into your wall.

2.

Use the dowels and screws to fix the wall brackets.

3.

Hang the box into the wall brackets.

4.

Lock the upper wall bracket.

Nozzle, Connectors and Connecting Hose are stored inside the Box. Please take them out before first use.

Check out our installation video!
